Russia, Nizhny Novgorod

EDUCATION

IT Incubator (2022-2023)

Frontend development

Orion Innovation Development
Center (formerly MERA) (2021)

JavaScript developer

Nizhny Novgorod State University
N.I. Lobachevsky (2020)

JavaScript programming

SKILLS

Frontend:

React, Redux, Redux Toolkit,
Typescript, JavaScript, Axios,
Storybook, JIRA, Git, Bitbucket,
HTML, CSS/SCSS

Testing:

Unit, E2E testing with Jest

Other technologies:

Swagger, Postman, JSON, REST,
APIs, Puppeteer, Docker, Jenkins,
Postman

LANGUAGES

English B1 (intermediate)

Russian C2 (native)

SUMMARY

I am a frontend developer with experience in developing user interface (UI) for web applications using React, Redux, Redux Toolkit, JavaScript, TypeScript.

I have experience in using ReactJS components, forms, events, keys, router, as well as the concept of Redux and Flux. I also have commercial experience in writing automated tests.

EXPERIENCE

Project Work | Frontend Developer

04/2022 - Present

- React development with necessary stack: Redux, TypeScript, thunks, React-Router, RestAPI, AXIOS, StoryBook, React Hooks;
- Creating independent and reused React Components using Story Book;
- Architectural solutions for project(layering UI, BLL,DAL, server);
- Working with the server using ajax (CRUD determination and data processing);
- Refactoring, bugs fixing;

Orion Innovation | Software Engineer

07/2021 - 08/2022

- Writing automated tests (Javascript)
- Run tests on local and virtual machines with the following stack (Puppeteer, Jenkins, Docker)
- Search for bugs and entering the found errors into the bug-tracking system (Jira)
- Preparation of reports on the work done
- Documentation writing (Confluence)
- Interaction with developers and supporters.
